JBL Vertec and Array loudspeakers supported by Eurotruss engineered truss systems and towers.

Outdoor Systems are available
for purchase or rental

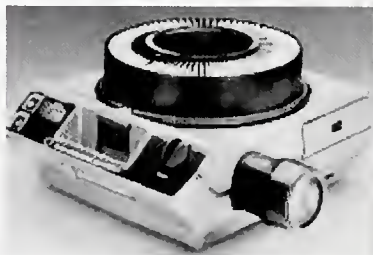

PREMIERS AND FILM FESTIVALS

Cinevision carries a complete line
of film, DLP video and audio
Equipment for rental

KODAK EKTAGRAPHIC III SLIDE PROJECTOR

WITH 4"-6" ZOOM LENS, SLIDE TRAY
AND BUILT-IN TIMER \$225.00

the most popular 40-by-50-inch and 48-by-70-inch models. Most styles feature a hidden hinge design for crisp, clean aesthetics, coupled with brilliant illumination. Applications include indoor and outdoor advertising and directory applications. Call 800-327-3723; or log on to www.dsaphototech.com.

Dynamic Images has broken the movie poster mold with a new eye-catching medium for print display ads. Lenticulars are capable of movie-like zooms, morphs, flips, dissolves,

3-D and other effects for up to 10 times the drawing power of still posters and a 21 percent rise in spontaneous recall. Call 866-43D-PICS; or log on to www.dynamicimages.com.

Texas Digital Systems' (TDS) Novellus Dynamic Communication System (DCS) allows theatres to leverage existing advertising, marketing or informational media and content on liquid crystal display (LCD) screens. This easy-to-use system can output to any number of LCD displays and consists of three key parts: the Novellus Player Engine, a combination of hardware and software; the Novellus Content Manager software application, which schedules media by time, date and day of the week; and TDS' indoor and outdoor LCD displays. Visit Booth 620; call 979-693-9378; or log on to www.txdigital.com.

Lawrence Metal Products now offers an electronic crowd-control system called Who's Next. Who's Next combines electronic display units with audio speakers to alert customers to the next available position. Customers waiting in line are greeted by a large Central Display Unit (CDU), which uses illuminated messages to direct them to the next available checkout or service window; directions are reinforced by audible, customized instructions from the speakers. While customers are waiting for a position to open, the CDU continuously scrolls illuminated, customized messages that inform and entertain them. Call 800-441-0019; or log on to www.lawrencemetal.com.
