The DCP-2000 Digital Cinema Server

Reliability Earned From Over 12 Years Of Video Server Research And Manufacturing

MOVING DIGITAL CINEMA FORWARD

Doremi Cinema's DCP-2000 is the number one installed JPEG2000 digital cinema server with over 300 units worldwide.

The DCP-2000 has been integrated into digital cinema networks worldwide by leading companies such as Christie/AIX, XDC and more.

Major Hollywood studios will soon only release in the DCI/JPEG2000 format. Ensure your ability to play Hollywood movies with the DCP-2000 cinema server.
