

# Best Line in the Movies

In today's highly competitive theater business, superb cinema sound is crucial to ensuring that lines form at your box office. For over eight decades, JBL Cinema loudspeakers have created cinema history from mixing rooms and studio sound stages to theaters throughout the world. JBL Cinema Systems are integral to today's movie-making and movie-going experience. Our patented, award winning ScreenArray® Series, THX® approved 8000 Series Surround Speakers and 4000 Series subwoofers accommodate any size theatre or budget with optimum coverage, wide dynamic range, extended bandwidth, and the ability to create movie magic. Great sound, proven reliability, award-winning technology.

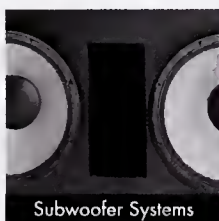

**Install JBL Cinema and watch the lines form.**
